Course Description

This course will examine the role of the United States in the global economy. Aside from possessing a preponderance of military power, the US derives a significant portion of its power and global influence from its structural position in the world's economic system. The US not only reaps significant benefits from the international trade and financial regimes it established in the wake of WWII, but, given that it also possesses the world's largest and most dynamic economy, it is able to use its economic might to further its political goals.

Throughout the semester, we will cover US foreign economic policy from several angles, exploring the US's structural power in the international economy, its historical development from an isolationist to a hegemonic power, its role in establishing and maintaining the post-war liberal world order, the growing use of economic coercion to further US political goals, and the various domestic and international challenges the US faces in maintaining its influence over the global economy. In particular, we will explore the ways in which the 2008 financial crisis, US industrial decline and concomitant demographic shifts, the rise of China, and the growth of protectionism will affect US power in the 21st century. All the while, we will pay special attention to the complex and multi-directional relationship between economics, security, and US grand strategy.

Learning Objectives

By participating in this course, you will be able to:

- Understand and explain the importance of the economic power of the United States as it relates to world politics.
- Describe the creation of the liberal world order and offer an informed opinion as to the future of the order.
- Comprehend and elaborate on the complex drivers, both international and domestic, of foreign economic policy, including the domestic distributional effects of foreign economic policy decisions.

Assignments and Grading

Grades for this course will be based on:

- Participation: 15%
- Midterm Exam (March 4th): 25%
- Paper (Due March 30th): 25%
- Final Exam (May 6th - 4:30-6:30) 35%

Late Paper Policy

If you are unable to turn your assigned work in on time, you will be penalized one half grade per day on that assignment. For example, an otherwise A+ (100%) paper would be marked as 95% if it were to be turned in a day late, and 90% if turned in two days late. This penalty will be applied after the paper has been graded.

Absence Policy

Attendance is mandatory. If you must be absent from a class meeting, you must contact me beforehand with your reasoning and/or a relevant doctor's note. Failure to do so will result in a reduction of your participation score by 1 point.

Policy on Electronic Devices

You are allowed to use a laptop computer to take notes only. Any misuse of a computer during class (perusing social media, for example) will result in a 1 point (10%) reduction in your participation score. The use of cellphones is strictly prohibited during class time.

Accommodations

Any student requesting academic accommodations based on a disability is required to register with Disability Services and Programs (DSP) each semester. A letter of verification for approved accommodations can be obtained from DSP. Please be sure the letter is delivered to me as early in the semester as possible. The phone number for DSP is 213-740-0776. If you need assistance with the process, please contact me.

Academic Honesty

Any student violating USC's Academic Dishonesty or Student Conduct policies will earn an F in the course and will be reported to the appropriate administrators for investigation. You are responsible for reviewing the Trojan Integrity Guide:
